

ICSS 2023

International Conference on Smart Sensors

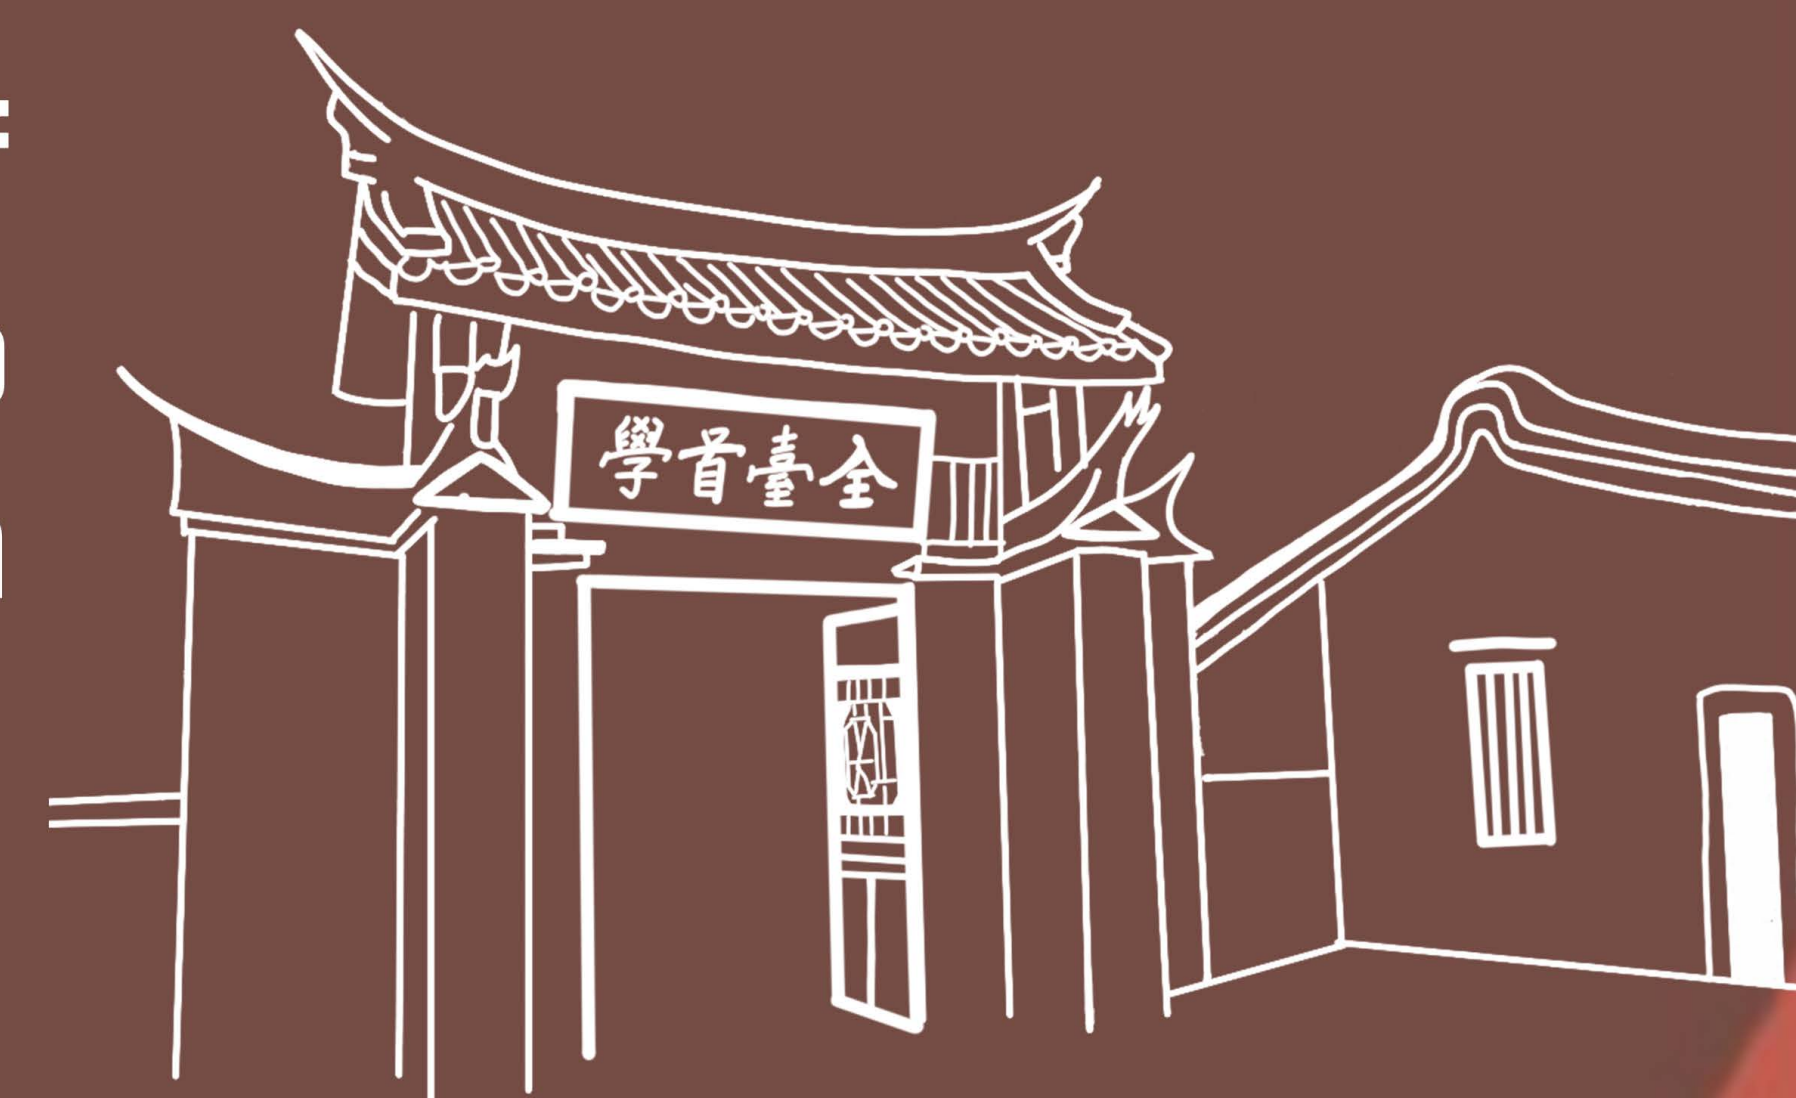

第 28 屆台灣化學感測器科技研討會/第 26 屆微奈米系統工程研討會

6.19 – 6.20 桂田酒店 Queena Plaza Hotel | Tainan, Taiwan

The ICSS is a premier conference in Taiwan focusing on the promotion of advanced research and industrial collaboration. The ICSS 2023 is expected to attract over 400 attendees and 40 industrial booths and will provide an excellent platform for the academics and industrial companies.

- A**
 - A1: Electrochemical sensors
 - A2: Optical sensors
 - A3: Liquid crystal sensors
 - A4: Semiconductor and electric sensors
- B**
 - B1: Nanomaterial, enzyme- or cell-based biosensors
 - B2: Immunosensors
 - B3: DNA or RNA-related biosensors
 - B4: Lab-on-a-chip microdevices
 - B5: Portable and emerging microfluidics technologies
- C**
 - C1: Material and device characterization
 - C2: Mechanical/physical sensors and microsystems
 - C3: Micro and nanoengineering
 - C4: Micro & nano fluidic devices and systems
- D**
 - D1: Energy harvesting/power/RF/optical/acoustic MEMS
 - D2: BioMEMS and integrated microfluidic platforms
 - D3: Enabling technologies for IoT applications
 - D4: Microfluidics for separations, reactions, and synthesis
